Help Your Athletes Get Recruited With NCSA College Recruiting

Add Recruiting to Your Registration Flow & Generate Revenue

NCSA College Recruiting is a recruiting platform that helps high school athletes navigate the college recruiting process by connecting them to college coaches. We teamed up with NCSA College Recruiting to give your members the option of creating a free recruiting profile while they're registering for your program.

How the Integration Works

Once members ages 13+ opt in, they'll receive an email from NCSA College Recruiting that walks them through the process of creating a free profile, allowing them to showcase highlight videos and more. If they upgrade to a premium account, you'll receive a share of the revenue.

Why Clubs Love NCSA College Recruiting

Help Your Athletes Play at the Right Schools

The NCSA College Recruiting matching tool identifies the schools that best align with your players' interests, career performance, and athlete objectives. It's the kind of added member value that will make your program stand out.

Showcase Your Players' Athletic Ability

Your players can create a comprehensive player profile with stats, achievements, highlight videos, and player biometrics to give prospective coaches the full picture of the player's athletic experience.

Build Connections With College Coaches

NCSA College Recruiting placed 25,000 athletes in NCAA programs in 2020. Utilize their vast database of NCAA coaches to make meaningful connections with colleges that can help your current and future players get recruited.
